TOWN AND VILLAGE STATISTICS.

PREFACE.

• This volume contains the same information for each village as is found in the corresponding volume in 1911, but an important addition has been made in supplying the totals for the divisions and sub-divisions into which the villages are grouped. The labour involved in doing so was much greater than might be expected, but the increased usefulness of the volume should be commensurate with the additional work. The numbers assigned to the village headmen's divisions in the Kacheheri List of Villages, 1912-14, have been added for ease of reference. Abandoned villages have not been omitted, as was the former practice. The names of the villages printed in italics, or names in italics bracketed with villages, denote the village headmen's divisions.

Full details are given with regard to changes of area, particularly as regards the absorption of villages or parts of villages by newly formed townships, or by the extension of those already existing. This also involved considerable additional labour, but was found to be very necessary for the satisfactory use of the data in practice. I am greatly obliged to the Chief Headmen for the great care taken by them in answering numerous queries which arose during the investigations made. It may be added that changes of administrative limits, which are involved in the extension of town limits or in the formation of new towns, however necessary or desirable they may be for administrative or electoral purposes, may often upset the statistics very considerably. This disturbance may be minimized by transferring to the new areas whole administrative units, such as villages, and not parts of them.

With regard to the transliteration of the place names, it was originally intended to show all the names with the appropriate diacriticals, so that the names might be pronounced more or less correctly at sight. But it was found that the printing and checking of the diacriticals would cause delay in publication, which would have been hardly justifiable. In accordance with the latest recommendations, *v* has been generally used in place of *w*, while *c* represents the old *ch* throughout. A new edition of the Kacheheri List of Villages is overdue, and, when it is undertaken, the question of the transliteration should receive attention.

¶¶ Figures are for the whole village before the inclusion of a part in the Local Board.
Hittetiya Vasama No. 418 subdivided since 1911 Census into these three Vasamas, and Vasama No. 419 Velveriya, which is wholly within Local Board now.
In 1911 the villages within the bracket were enumerated together under Hittetiya. 1911 figures are inclusive of the parts of villages Hittetiya East and West which have been included within Local Board since 1911 Census.
In 1911 these villages were enumerated under their Vasama name.
Part of the old Vasama No. 421, the other part now within Local Board.
Taken over since 1911 from Vasama No. 425 to form a separate Vasama.
* Old Malagoda West Vasama now split up into three separate Vasamas, Hirideni-
maduwa, the new Vasama No. 424 having taken over from Malagoda East Vasama.
†† At 1911 Census the villages within the bracket were enumerated under the village Vehelgoda.
†† Taken over since 1911 from Vasama No. 420 to form a separate Vasama.
§§ In 1911 the villages Talpavila North, South, and East were enumerated together under one Vasama No. 430 as Talpavila.
¶¶ Villages taken over since 1911 from Vasama No. 431 to form a new Vasama.
¶¶ In 1911 enumerated under other villages of the Vasama.
*** Formed since 1911 by subdividing old Devundara Vidane Aracchi's Division into Devundara North and South Vidane Aracchi's Divisions.
††† 1911 figures are for the whole village before the inclusion of a part in Dondra Sanitary Board.
